**SENSITIVE POSITION**

Sensitive Position:  ○ Yes  ○ No

Job Summary/Basic Function:*  Under general supervision, this position provides consultative support to enhance the use and access of technology and information systems, with particular focus on delivering outstanding customer service for applications and services utilized by campus technical support staff, clients, and users of classrooms. Duties include providing intermediate and advanced user consultation and support, applications and services administration, documentation, and training.

The career level is broad and includes intermediate through senior level positions. Incumbents at this level work relatively independently and possess the experience to be fully proficient in performing most or all of the work assignments defined for their position. Typically, incumbents have acquired the requisite skills and knowledge through a combination of education, training, and progressive work experience to be able to demonstrate competence in independently applying technical judgment to standard and nonstandard applications and systems, solving a wide range of problems and developing practicable and thorough solutions, and using effective communication and listening skills.

Minimum Qualifications:*  • Bachelor’s degree and two years of relevant experience.
  • Additional qualifying experience may be substituted for up to two years of the required education on a year-for-year basis.
Required Qualifications:
1. Demonstrated ability to translate technological solutions into terms understandable by a variety of users; demonstrated ability to work with technical and non-technical staff to identify user requirements and translate them into technology-based solutions.
2. Demonstrated ability to research and evaluate new technologies and software to meet user needs and to use creative problem-solving skills and apply effective technical solutions.
3. Ability to apply campus information security policy and standards to develop specific security requirements. Ability to apply security models and frameworks to ensure appropriate security is maintained.
4. Excellent verbal and written communication skills, including the ability to prepare and deliver formal and informal documentation, presentations, and training to a variety of end users.
5. Excellent organizational and time management skills with the ability to set own priorities to coordinate multiple assignments with fluctuating and time-sensitive deadlines.
6. Ability to initiate, establish, and foster communication and teamwork by maintaining positive and professional working relationships within a diverse population from various cultural backgrounds; ability to use tact and diplomacy to effectively handle interpersonal interactions at all levels and respond appropriately to conflicts and problems.
7. Demonstrated customer service skills, including a high level of diplomacy and professionalism.
8. Interest and ability to maintain and enhance technical currency.
9. General knowledge of requirements for accessibility and other regulatory compliance.
10. Working knowledge of common software application packages and deployment automation tools for performance monitoring and issues tracking.
11. Comprehensive knowledge in desktop support and demonstrated ability to apply it effectively.
12. Demonstrated knowledge and skills working with Windows, Mac and iOS operating systems.
13. Working knowledge of media equipment and systems.

Preferred Qualifications:
• Degree in computer science or related field.
• Demonstrated skills in an institutional/educational environment utilizing a customer-oriented and service-centered attitude.
• Working knowledge of lean/agile work management processes.
• Two years of experience in a customer service setting.
• InfoCommAVIXA CTS, CTS-I, or CTS-D professional certifications.
• Experience using system monitoring and performance tools in a large-scale environment.
• Knowledge of web conferencing/distance learning technologies.
• Working knowledge of and experience with network/client/server/AV protocols.
• Working knowledge of Active Directory.
• Working knowledge of remote desktop support tools.
• Working knowledge of Office 365 tools and interfaces.
• Experience deploying technology and working in virtual environments.

Special Conditions:
• Must be willing to travel and attend training programs off-site for occasional professional development.
• Must be able to work additional hours, occasional holidays, and adjust working hours to meet special jobs. May be called back periodically to perform work as needed on an emergency basis.
• The person holding this position is considered a 'mandated reporter' under the California Child Abuse and Neglect Reporting Act and is required to comply with the requirements set forth in CSU Executive Order 1083 as a condition of employment.
• Must be able to successfully pass a pre-employment background/fingerprint check.
• Must be able to safely move equipment up to 50 lbs, with or without assistance.
• Ability to safely drive a state vehicle.
• Ability to climb ladders and get under tables to check network wiring connections.
• Ability to identify visual status lights and audible alarm signals.
• This position classification has been defined as "Exempt" and is not subject to the overtime provisions of the Fair Labor Standards Act (FLSA).

License / Certification:
N/A

Mandated Reporter:*
